5.5.2 Collaboration Tools

LEARN IT

Digital collaboration tools are online platforms that support **communication, file sharing, learning and teamwork** across different locations.

Tool	Primary function and educational use
Google Docs	Write, edit, comment and share documents in real time. Excellent for group assignments.
Zoom	Online meetings, virtual classes, screen sharing and video-based communication.
Microsoft Teams	A unified workspace for online meetings, file sharing, class groups and structured teamwork.
Google Classroom / LMS	Learning Management Systems help teachers manage lectures, distribute assignments, conduct quizzes and grade student activities.
WhatsApp	Quick class announcements, urgent reminders and instant group communication. Must be used responsibly.
Email	Formal communication, official notices, submitting large attachments, and keeping a professional written record.

Responsibly on WhatsApp means: no leaking of classmates' marks or photos, no fake forwards, and no forcing a student who has no smartphone to miss official work that was never posted on the LMS.

WORKED EXAMPLE

Worked example: choose the right tool for each job in a Hyderabad college group project.

1. Write the report together after school, from different houses. → **Google Docs** (real-time edit and comments).
2. Sunday 7 pm teacher explanation with slides. → **Zoom** or **Teams** (video + screen share). Turn on captions (equity).
3. Collect homework, quiz and grades in one place. → **Google Classroom / LMS**.
4. "Tomorrow's test is postponed — tell everyone in the next ten minutes." → **WhatsApp** class group (then repeat on Classroom so nobody is left out).
5. Send the principal a formal complaint with a 8 MB scanned letter. → **Email** (written record + attachment).

REMEMBER IT

Docs = write together. Zoom/Teams = meet. Classroom = official class hub. WhatsApp = fast but informal. Email = formal record.

COMMON MISTAKE

Mistake: Running the whole course only on WhatsApp.

Fix: WhatsApp is for quick reminders. Assignments, marks and lectures belong on an LMS so there is access control, a record, and a path that does not depend on one person's phone.
