CS XII

Chapter 6: Entrepreneurship in the Digital Age

Lecture 01 of 16

### 6.1 Entrepreneur and Entrepreneurship

#### LEARN IT

An **entrepreneur** is a person who **identifies a problem, thinks of a solution, and tries to change that solution into a product or service.**

An entrepreneur does not always begin with a large company or a big office. Many begin with a small idea, limited resources, and a strong wish to solve a problem. Think of a young person in Karachi who starts by delivering home-cooked lunch boxes to a few offices, or a student in Sukkur who repairs mobile phones for neighbours. They started small.

Entrepreneurs usually show three habits:

- **They observe people and listen to their needs.** They notice what annoys people again and again.
- **They take calculated risks.** A *calculated risk* is a risk you take after thinking about what you could lose and how to keep that loss small. It is not gambling.
- **They improve their idea step by step.** They do not expect the first attempt to be perfect.

#### What is entrepreneurship?

**Entrepreneurship** is the **process** of **planning, starting, testing, and improving** a business idea. It involves **creativity, problem-solving, teamwork, communication, and calculated risk.**

Notice the difference: the *entrepreneur* is the **person**; *entrepreneurship* is the **process** that person goes through.

#### REMEMBER IT

**Simple meaning.** An entrepreneur asks: "*What problem can I solve?*" Entrepreneurship is the process of testing and improving that solution until it becomes useful for people.

Remember the three-step journey:

1. Problem → 2. Solution → 3. Product

#### WORKED EXAMPLE

**Worked example: spotting the three steps.** Ayesha lives in Larkana. Her mother and other women in the street make beautiful hand-embroidered *rillis*, but they can only sell them to visitors.

**Step 1, Problem:** skilled women have products but very few buyers.

**Step 2, Solution:** show the rillis online so buyers from other cities can see them.

**Step 3, Product/Service:** a Facebook page with photos, prices and a "message to order" button.

Ayesha is the **entrepreneur**. Planning the page, posting photos, seeing which designs sell, and changing prices is **entrepreneurship**.

#### COMMON MISTAKE

**Mistake:** "Only rich people with big offices can be entrepreneurs."

**Fix:** The source clearly says many entrepreneurs begin with a small idea and limited resources. What matters is a real problem, a useful solution, and the willingness to improve it.

#### اردو میں سمجھیں

کاروباری شخص (Entrepreneur) وہ ہوتا ہے جو کسی مسئلے کو پہچانتا ہے، اس کا حل سوچتا ہے اور اس حل کو کسی پراڈکٹ یا سروس میں بدلنے کی کوشش کرتا ہے۔ کاروبار شروع کرنے، آزمانے اور بہتر بنانے کے پورے عمل کو انٹرپرائیورشپ (Entrepreneurship) کہتے ہیں۔ ایسا شخص لوگوں کی بات سنتا ہے، سوچ سمجھ کر خطرہ مول لیتا ہے اور اپنے خیال کو قدم بہ قدم بہتر بناتا ہے۔

#### CHECK YOURSELF

1. Is "entrepreneurship" a person or a process?
2. Name the three habits of an entrepreneur given in the source.
3. What is a calculated risk?

Answers: 1. A process (planning, starting, testing and improving a business idea). 2. Observing people and listening to their needs; taking calculated risks; improving the idea step by step. 3. A risk taken after thinking carefully about the possible loss and keeping that loss small.

## Extra board practice

These MCQs and questions are extra to the textbook. Close the notes, attempt them, then open the key.

### MCQ 1. An entrepreneur:

- a. Turns a problem into a product/service and takes the risk
- b. Only works in a bank job
- c. Only draws NAND
- d. Only writes OSI

### MCQ 2. Entrepreneurship is the:

- a. Process of doing that (test and improve until useful)
- b. Logo
- c. First tweet
- d. Compiler

### MCQ 3. A student can be entrepreneurial by:

- a. A small local solution (notes, tutoring, canteen queue)
- b. Waiting for a billion-dollar app
- c. Avoiding all users
- d. Skipping tests

### MCQ 4. Risk in the book's sense includes:

- a. It might not work / no one pays
- b. NAND delay
- c. Median of 1
- d. OSI layer 2

### MCQ 5. Not every shopkeeper in the bazaar is automatically:

- a. A digital entrepreneur (needs the digital-age piece)
- b. A failure
- c. A programmer
- d. A UX designer

### MCQ 6. Ethics still apply:

- a. Don't scam, don't leak user data
- b. Scams are clever entrepreneurship
- c. Spy on classmates
- d. Copy a bank app's OTP

## Extra short questions

1. Define entrepreneur and entrepreneurship.
2. A local non-app example.
3. Why "risk" is in the definition.
4. One quality of an entrepreneur from class discussion.

## Extra long question

1. Is a class fellow who sells printed notes an entrepreneur? Use the book definitions, then say what would make it "digital age".

## Extra answer key

**MCQs:** 1. A 2. A 3. A 4. A 5. A 6. A

### Short

1. Person vs process: problem → solution → offer to users, with risk.
2. A photocopy stall that also sells past papers at the gate — still entrepreneurship; digital comes next lecture.
3. You may waste time/money; users may not come.
4. Observes problems, tests, iterates — not just dreams.

### Long

1. Yes if they identified a problem and run a small offer. Digital: WhatsApp catalogue, JazzCash, PDF store. Ethics: copyright of the textbook.
