6.11 Developing an MVP

LEARN IT

To develop an MVP, the team must **select only the essential features**. Extra features should be avoided at the beginning. A common mistake is **trying to build everything at once**. This makes the product **difficult, costly, and slow**.

An **MVP plan** should clearly explain: the **problem, target users, main feature, basic design, estimated cost, marketing method, feedback method, and improvement plan**.

Table 6.8: MVP planning checklist

MVP Element	Question to Ask	Example Answer
Problem	What problem are we solving?	Students wait too long at canteen.
Target users	Who will use it first?	Grade XII students in one college.
Main feature	What is the ONE feature that solves it?	Pre-order snacks before break.
Basic design	What steps are needed?	Menu, name, class, order time.
Cost	What free/low-cost tools to use?	Google Form or printed slips.
Marketing	How will early users hear about it?	WhatsApp message to class group.
Feedback	How will users respond?	Short feedback form after 3 days.

The eighth element, the **improvement plan**, answers "What will we change after feedback?" (you will see it in the case study in 6.12).

WORKED EXAMPLE

Worked example: filling the checklist for a new idea. Idea: a college notice reminder for parents in Hyderabad (from Table 6.1).

MVP Element	Answer
Problem	Parents miss college notices (fee dates, PTMs, holidays).
Target users	Parents of first-year (Class XI) students of one college.
Main feature	Send each notice to parents' phones on the same day.
Basic design	Photo of notice + 2-line summary in Urdu and Sindhi + date.
Cost	Free: WhatsApp broadcast list from the college office phone.
Marketing	Students give a printed slip to parents with the number to save.
Feedback	After 2 weeks, a 3-question voice-note or phone survey of 20 parents.
Improvement plan	If parents say notices come too late, send a reminder 1 day before each date.

Notice: only **one** main feature, a **free** tool, and a clear way to collect feedback.

REMEMBER IT

Mnemonic for the 8 elements: "People Try My Bakery; Cheap Muffins Find Improvement": Problem, Target users, Main feature, Basic design, Cost, Marketing, Feedback, Improvement plan.

COMMON MISTAKE

Mistake: Writing a list of ten "main features".

Fix: The checklist asks for the **ONE** feature that solves the problem. Everything else waits until the MVP proves people want it.

اردو میں سمجھیں

ایم وی پی بناتے وقت صرف ضروری خصوصیات چنیں؛ سب کچھ ایک ساتھ بنانے سے کام مشکل، مہنگا اور سست ہو جاتا ہے۔ ایم وی پی منصوبے میں مسئلہ، پہلے صارفین، ایک بنیادی خصوصیت، سادہ ڈیزائن، کم خرچ ٹولز، تشہیر کا طریقہ، رائے لینے کا طریقہ اور بہتری کا منصوبہ واضح ہونا چاہیے۔

CHECK YOURSELF

1. Why is building everything at once a mistake?
2. List the eight elements of an MVP plan.
3. In Table 6.8, what is the marketing method?

Answers: 1. It makes the product difficult, costly and slow. 2. Problem, target users, main feature, basic design, estimated cost, marketing method, feedback method, improvement plan. 3. A WhatsApp message to the class group.
