

Step 10 – 12: Data Analysis, Conclusion & Artefact

دسویں قدم میں چارٹس اور اسپریڈشیٹ سے رجحانات تلاش کیے جاتے ہیں: زیادہ تر طلبہ روزانہ تین سے پانچ گھنٹے فون است...

CS XI

Chapter 6: Digital Literacy

Lecture 14 of 14

★ Golden

Step 10 – 12: Data Analysis, Conclusion & Artefact ★ Golden

Step 10: Analyse the results

LEARN IT

To **analyse** means to study the data carefully to find **patterns** and **trends**. By looking at the spreadsheet and charts, the group identifies:

- **Most students** (the majority) use phones for **3–5 hours daily**.
- **Half** use it for **educational purposes** (lectures/notes).
- **A clear trend:** students who use phones mostly for **entertainment** report much **higher distraction** levels than those who use them for study.

Step 11: Write the conclusion

LEARN IT

A **conclusion** answers the research question using the evidence:

"The research shows mobile phones have both positive and negative effects. They provide access to learning materials. However, excessive use of social media and gaming reduces concentration. Therefore, phones should not be banned, but managed wisely."

Step 12: Recommendations

LEARN IT

Recommendations are practical suggestions based on the data. The students recommend:

- Turn off **social media notifications** while studying.
- Set **daily screen-time limits**.
- Take **physical breaks** from screens to protect health.

WORKED EXAMPLE

From numbers to a finding. Using the estimated chart counts (12, 21, 7 out of 40):

Step 1: $21 \div 40 = 52.5\%$. Since $52.5\% > 50\%$, the statement "most students use phones for 3–5 hours" is supported.

Step 2: "Half use it for educational purposes" means about 20 of the 40 students chose Lectures or Notes as their main activity ($20 \div 40 = 50\%$). Formula:

=COUNTIF(D2:D41, "Lectures")+COUNTIF(D2:D41, "Notes") .

Step 3 – Compare groups: filter the sheet to show only Social Media/Games users and count how many said "Yes" to distracted; then do the same for Lectures/Notes users. If the entertainment group has a much higher share of "Yes", that is the trend.

Step 4 – Link to secondary data: the article said excessive screen time lowers concentration; the survey agrees, so the conclusion is stronger.

REMEMBER IT

Conclusion formula: "**The data shows ... However ... Therefore ...**" – state the main finding, mention the other side, then give the overall answer.

COMMON MISTAKE

Mistake: Writing a conclusion that is not based on the data, e.g. "Phones should be banned" when the data showed phones also help learning. **Fix:** Every sentence in the conclusion and recommendations must be supported by your findings. Also, a trend between two things (entertainment use and distraction) shows a *link*; be careful before claiming one definitely *causes* the other.

اردو میں سمجھیں

دسویں قدم میں چارٹس اور اسپریڈشیٹ سے رجحانات تلاش کیے جاتے ہیں: زیادہ تر طلبہ روزانہ تین سے پانچ گھنٹے فون استعمال کرتے ہیں، نصف اسے تعلیم کے لیے استعمال کرتے ہیں، اور تفریح کے لیے استعمال کرنے والے زیادہ توجہ بٹنے کی شکایت کرتے ہیں۔ گیارہویں قدم میں نتیجہ لکھا جاتا ہے کہ فون پر پابندی نہیں بلکہ اس کا دانشمندانہ استعمال ہونا چاہیے۔ بارہویں قدم میں سفارشات دی جاتی ہیں: پڑھائی کے دوران نوٹیفکیشن بند کریں، اسکرین ٹائم کی حد مقرر کریں اور وقفے لیں۔

EXAM TIP

You may be asked to "write a conclusion and two recommendations" for given data. Use the "shows ... however ... therefore" pattern and make sure each recommendation follows from a finding.

CHECK YOURSELF

1. According to Step 10, which group reported higher distraction?
2. Should phones be banned according to the conclusion?
3. Give two of the students' recommendations.

Answers: 1. Students who use phones mostly for entertainment. 2. No – they should not be banned but managed wisely. 3. Any two: turn off social media notifications while studying; set daily screen-time limits; take physical breaks from screens.

LEARN IT

A **digital artefact** is a final product created using digital technologies. Students must create **one final artefact** that answers the original research question. It is **not just a decorated file**; it must present **evidence** and **conclusions**.

Artefact option	Suitable digital tools	Main purpose
Digital Report	MS Word, Google Docs	Explain the full study in a structured text document.
Presentation	PowerPoint, Canva, Slides	Share key findings with a live audience.
Infographic	Canva, Adobe Express	Show the main results visually and quickly on one page.
Dashboard	Power BI, Tableau	Explore data through interactive charts and filters.

A **dashboard** is an interactive screen of charts; the viewer can click filters (e.g. "show only Commerce students") and the charts update.

Standard artefact structure

1. Title
2. Research Question
3. Introduction
4. Method of Data Collection
5. Primary Data Findings
6. Secondary Data Summary
7. Charts and Graphs
8. Conclusion
9. Recommendations
10. References

WORKED EXAMPLE

Planning a 10-slide presentation artefact for the phone study (one slide per structure item):

Slide 1 Title: "Phones and Study Habits – Class XI Survey". **Slide 2** Research question. **Slide 3** Introduction: why the class investigated this. **Slide 4** Method: Google Form survey, 40 students, different sections, anonymous with consent. **Slide 5** Primary findings: 52.5% use phones 3–5 hours; half use for study. **Slide 6** Secondary data: article on screen time and concentration. **Slide 7** The bar chart of daily phone use. **Slide 8** Conclusion: "manage wisely, don't ban". **Slide 9** Three recommendations. **Slide 10** References: the article's title, author, website and date.

REMEMBER IT

The structure follows the inquiry itself: **What** (title, question, intro) → **How** (method) → **Found** (primary, secondary, charts) → **So what** (conclusion, recommendations) → **Credit** (references).

COMMON MISTAKE

Mistake: Spending all your time on colours and animations and forgetting evidence. **Fix:** An artefact is judged on whether it answers the research question with evidence. Also never skip **References** – listing your secondary sources is honest and avoids plagiarism.

اردو میں سمجھیں

ڈیجیٹل آرٹیفیکٹ (Digital Artefact) ڈیجیٹل ٹیکنالوجی سے بنائی گئی آخری پروڈکٹ ہے جو تحقیقی سوال کا جواب ثبوت اور نتائج کے ساتھ پیش کرتی ہے؛ یہ صرف سچی ہوئی فائل نہیں۔ اس کی چار صورتیں ہیں: رپورٹ، پریزنٹیشن، انفوگرافک اور ڈیش بورڈ۔ معیاری ساخت میں عنوان، تحقیقی سوال، تعارف، طریقہ کار، بنیادی و ثانوی ڈیٹا، چارٹس، نتیجہ، سفارشات اور حوالہ جات شامل ہیں۔

EXAM TIP

Learn the four artefact options with tools and purpose (a table question), and the ten-part structure in order. "What is a digital artefact?" – stress that it must present **evidence and conclusions**, not just decoration.

CHECK YOURSELF

1. Which artefact lets viewers explore data with interactive filters?
2. What is the last item in the standard artefact structure?
3. Name two tools for making an infographic artefact.

Answers: 1. A dashboard (Power BI, Tableau). 2. References. 3. Canva and Adobe Express.

Extra board practice

These MCQs and questions are extra to the textbook. Close the notes, attempt them, then open the key.

MCQ 1. The digital inquiry project applies:

- a. All of chapter 6 in order
- b. Only careers
- c. Only NAND
- d. Only OSI

MCQ 2. Advanced search helps you:

- a. Narrow secondary sources (quotes, site, date)
- b. Hack Wi-Fi
- c. Draw K-maps
- d. Sort in $O(1)$

MCQ 3. Primary collection in the project is often:

- a. A class survey
- b. A CPU design
- c. A TCP stack
- d. A waterfall contract

MCQ 4. You organise results in a:

- a. Spreadsheet + charts
- b. Random WhatsApp dump only
- c. NAND netlist
- d. Figma only

MCQ 5. The artefact is:

- a. The final digital product that answers the question
- b. The first brainstorm sticky
- c. The career list
- d. The teacher's attendance

MCQ 6. A conclusion should:

- a. Answer the question and admit limits
- b. Ignore the data
- c. Name and shame students
- d. Invent $n=1$ million

Extra short questions

1. List the project steps in order (grouped as in the book).
2. What is a digital artefact here?
3. Why include secondary if you surveyed?
4. One sentence of a good limitation.

Extra long question

1. Outline a 12-step inquiry: "Does extra screen time lower concentration in our class?" Name tools and the artefact. ★ Golden.

Extra answer key

MCQs: 1. A 2. A 3. A 4. A 5. A 6. A

Short

1. Search/method; survey/primary; secondary+sheet; analyse/conclude; artefact.
2. Slides, infographic, short video, site — that answers the inquiry question.
3. To compare your small sample with a published claim.
4. $n=40$ in one college, so we cannot speak for all Sindh.

Long

1. Steps 1–3 search; 4–6 survey; 7–9 PBS/article + sheet; 10–12 charts, conclusion, artefact (infographic+spreadsheet). Ethics. One expected chart: hours vs self-reported focus.
