5.5.1 Importance of Assistive Technologies

LEARN IT

Assistive technologies are important for three main reasons:

1. **Equal access to education:** Screen readers allow blind students to read digital textbooks equally with their peers (classmates).
2. **Independence in daily life:** Mobility aids reduce the need for constant human assistance — a person in a smart wheelchair can go to the market without someone pushing.
3. **Social inclusion:** They break down barriers, allowing individuals to work, study and socialise confidently.

Equal Access

Independence

Inclusion

WORKED EXAMPLE

How one tool changes a life: A visually impaired student in Karachi uses a screen reader on her laptop. **Equal access** — she reads the same e-books as her class. **Independence** — she no longer needs someone to read to her. **Inclusion** — she joins the class WhatsApp group, takes online tests and later gets a job, contributing to society.

REMEMBER IT

Remember "**All**": Access, Independence, Inclusion.
