Chapter 6: Digital Literacy

Lecture 02 of 17

6.2 Digital Literacy in the Information Age

LEARN IT

The **Information Age** is the period we live in now, where vast amounts of data are **produced, shared** and **accessed instantly** through the internet, mobile devices and digital platforms (websites, apps, social media).

Simply **having access** to technology is **not enough**. Owning a smartphone does not make you good at using information. You must develop the skills to **understand, manage** and **use** information wisely.

Digital literacy goes beyond basic computer skills. It involves three kinds of ability:

Ability	What it means	Example
Technical	Knowing how to operate devices and software.	Creating a Google Form; using a spreadsheet.
Cognitive (thinking)	Thinking critically about information.	Checking whether a news story is true before believing it.
Social	Communicating and behaving well with others online.	Being polite in a class WhatsApp group; respecting privacy.

Together these abilities help you function successfully in a **digital society**.

WORKED EXAMPLE

Applying the three abilities. A video claims "Drinking hot water cures dengue." What does a digitally literate student do?

Technical: Uses a search engine to search `dengue treatment site:.gov`.

Cognitive: Notices the video has no doctor or source, and that official health websites do not support the claim. Concludes it is false.

Social: Does not forward the video, and politely tells the family group that it is not reliable.

REMEMBER IT

Three abilities = "**Tech, Think, Talk**": Technical, Cognitive (think), Social (talk with others).

COMMON MISTAKE

Mistake: Thinking that "more information" automatically means "better information". **Fix:** In the Information Age the problem is not finding *some* information; it is choosing the *right, reliable* information from too much.

اردو میں سمجھیں

معلوماتی دور (Information Age) میں انٹرنیٹ اور موبائل کے ذریعے بے پناہ معلومات فوراً تیار اور شیئر ہوتی ہیں۔ صرف ٹیکنالوجی تک رسائی کافی نہیں؛ معلومات کو سمجھنے، سنبھالنے اور دانشمندی سے استعمال کرنے کی مہارت ضروری ہے۔ ڈیجیٹل خواندگی میں تکنیکی، ذہنی (Cognitive) اور سماجی صلاحیتیں شامل ہیں۔

CHECK YOURSELF

1. What is the Information Age?
2. Name the three types of ability that digital literacy involves.

Answers: 1. A period in which vast amounts of data are produced, shared and accessed instantly through the internet, mobile devices and digital platforms. 2. Technical, cognitive and social abilities.

Next lecture: 6.3 Types of Data
