

# Career Opportunities in UI/UX

اس باب سے ملازمتیں: یو ایکس ڈیزائنر صارف کی ضرورت تحقیق کرتا ہے، یو آئی ڈیزائنر فگما میں رنگ اور بٹن بناتا ہے...

CS XII

Chapter 1: Computer Systems (HCI)

Lecture 16 of 16

## Career Opportunities in UI/UX

### LEARN IT

The same HCI skills you practised on ATMs, JazzCash and school portals are real jobs. Each role uses a different slice of this chapter.

| Career                   | What the person does                                                                |
|--------------------------|-------------------------------------------------------------------------------------|
| UX designer              | Researches user needs to ensure the app is intuitive and satisfying.                |
| UI designer              | Designs the visual layout (colours, typography, buttons) using tools such as Figma. |
| Interaction designer     | Focuses on the flow between screens, animations and gestures.                       |
| Usability researcher     | Runs SUS/NPS tests and A/B tests with real users to find flaws.                     |
| Accessibility specialist | Ensures products meet inclusive standards for people with disabilities.             |

### WORKED EXAMPLE

#### Worked example: who does which JazzCash task?

- "Interview shopkeepers about sending money" → **UX designer**.
- "Pick the green, the typeface and the Send button in Figma" → **UI designer**.
- "On Tap Send, slide to Confirm, then Success" → **interaction designer**.
- "Run SUS and an A/B test of two Send buttons" → **usability researcher**.
- "Check contrast, captions and Tab order" → **accessibility specialist**.

### REMEMBER IT

UI looks; UX asks; interaction connects screens; research measures; accessibility includes everyone.

### COMMON MISTAKE

**Mistake:** "UI designer and UX designer are one job."

**Fix:** In small teams one person may wear both hats, but the source lists them separately: UX researches needs and satisfaction; UI draws the visual layout in tools like Figma.

### اردو میں سمجھیں

اس باب سے ملازمتیں: یو ایکس ڈیزائنر صارف کی ضرورت تحقیق کرتا ہے، یو آئی ڈیزائنر فگما میں رنگ اور بٹن بناتا ہے، انٹریکشن ڈیزائنر اسکرینوں کا بہاؤ سنبھالتا ہے، یوزیبلٹی ریسرچر SUS، NPS اور اے/بی ٹیسٹ چلاتا ہے، اور ایکسیسیبلٹی ماہر سب کے لیے رسائی یقینی بناتا ہے۔

### CHECK YOURSELF

1. Who runs SUS, NPS and A/B tests?
2. Which career uses Figma for colours, type and buttons?

Answers: 1. Usability researcher. 2. UI designer.
